About Sohail University

Sohail University was established under the auspices of the S.M. Sohail Trust through an act of the Provincial Assembly of Sindh, officially chartered under the Sohail University Act, 2017 (Sindh Act No. XIII of 2018) on May 9, 2018. While the University itself is relatively new, its roots run deep through its constituent institutions. Jinnah Medical and Dental College was established in 1998-99, followed by Jinnah College of Nursing in 2009. Both institutions have earned a strong reputation for quality teaching and hands-on clinical training in their attached, well-equipped hospitals. Since receiving its charter, Sohail University has expanded significantly. The University now comprises several faculties: Faculty of Health Sciences, Faculty of Basic and Applied Sciences, Faculty of Management and Information Sciences, and Faculty of Social Sciences. Each faculty offers a range of undergraduate and postgraduate programs designed to meet national and international standards, as recognized by the Higher Education Commission (HEC) of Pakistan.

V To be a leading University through
i commitment to innovative teaching
s and learning, creation of new
i knowledge through transformative
o research and promoting values of
n learning, leadership and services.

M • Establish centers of excellence in emerging fields
i across sciences, engineering, technology,
S management, arts, and humanities.
S • Achieve excellence in research, teaching, and learning
i through continuous quality improvement.
o • Promote a student-centered environment based on
n respect, integrity, and ethical values.
• Integrate social accountability into graduate programs
to address present and future societal challenges.

Sites and Facilities

Sohail University operates across two campuses in Karachi, located in Korangi and on Shaheed-e-Millat Road. To strengthen its research capacity, the University has established two key research facilities: the Institute of Historical and Social Research and a state-of-the-art Biomedical Research Centre.

Message from the Vice Chancellor

Dear Graduating Students

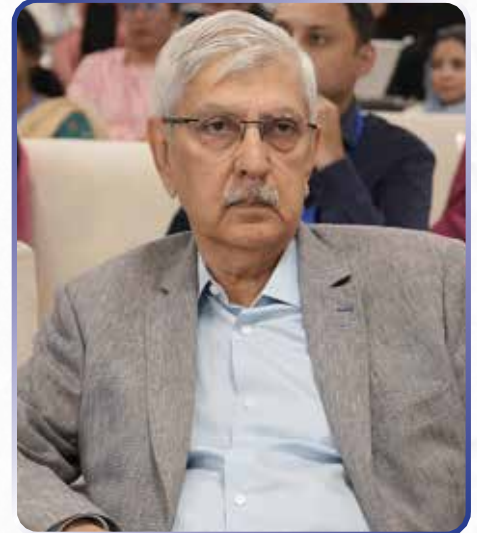

On this momentous day, I extend my warmest congratulations to each of you on behalf of the entire faculty and staff of Sohail University. Today marks not only the end of one journey but the beginning of another one, where you will translate knowledge into action, compassion into care, and ambition into achievement.

Over the years, you have faced challenges with resilience, embraced learning with curiosity, and grown into capable individuals ready to serve society. Whether you are stepping into clinical practice, professional pursuits, research, or further academic pursuits, always remember that excellence is not just about skills. It is about integrity, empathy, and lifelong learning.

As you move forward, carry with you the values that Sohail University stands for, innovation, ethics, and a deep commitment to humanity. Be bold in your dreams, humble in your successes, and tireless in your pursuit of making a difference.

We are proud of you. Stay connected, stay inspired, and always strive to heal, lead, and inspire.

Prof. Dr. M. Saeed Qureshy (TI)
Vice Chancellor
Sohail University

Message from the Registrar

Dear Graduating Students

It is with great pride and heartfelt congratulations that I address you on this momentous occasion of your graduation. Today marks the culmination of your hard work, dedication, and perseverance throughout your academic journey.

During your time at this institution, you have not only gained knowledge and skills but have also grown as individuals prepared to face the challenges of the future. As you step into the next phase of your lives, I encourage you to uphold the values of integrity, excellence, and lifelong learning.

Remember that education is not merely a destination, but a continuous journey. Wherever life takes you, may you contribute positively to society and make a meaningful impact in your respective fields.

On behalf of the entire academic administration, I extend my best wishes for your future endeavors. May you achieve great success and fulfillment in all that you pursue.

Congratulations once again on your well-deserved achievement.

Message from the Dean

Dear Graduates

You leave us not merely with degrees, but with capabilities. You can interpret data, lead teams, manage resources, and build systems. These are valuable skills. But what truly sets you apart is your ability to adapt, because in business and technology, change is the only constant. As you enter the professional world, remember this: Strategy without empathy fails. Systems without solutions are empty. Your greatest asset will not be a software or a framework, but your judgment, integrity, and willingness to listen before you lead.

Stay curious. Stay ethical. And never stop learning. Markets will shift, technologies will evolve, but a sharp mind guided by a kind heart will always find its way.

We are proud of you. Go and create value.

Message from the Dean

Dear Graduates

You have spent years observing, questioning, and understanding the fundamental processes of life from the behavior of molecules to the complexity of living systems. But science is not just about knowledge. It is about what you do with it. Your strength lies in translation, turning basic principles into real-world applications, whether in healthcare, biotechnology, or research. As you move forward, do not lose the curiosity that brought you here. Let it drive you to solve problems that matter.

Be precise in your methods, passionate in your purpose, and humble before nature's complexity. The world does not simply need more professional and scientists. It needs professionals and scientists who care deeply and act responsibly. Congratulations. We are exceptionally proud of you.

Message from the Dean

Dear Graduates

You have chosen paths where precision meets compassion, where science serves humanity, and where every decision affects a real person with a name, a story, and a family. You have mastered clinical skills, drug therapies, and patient communication. But the true measure of your success will not be in prescriptions written or procedures performed. It will be in the trust you earn, the comfort you provide, and the lives you touch.

Go forward with confidence, but also with humility. Treat every patient with dignity. Support your colleagues without hesitation. And never stop learning, because healthcare changes daily, but the need for kindness remains constant.

You are ready. We are immensely proud of you.
